UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 8-K

CURRENT REPORT

Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Date of report (Date of earliest event reported): October 8, 2009

GULFPORT ENERGY CORPORATION

(Exact Name of Registrant as Specified in Charter)

000-19514

(Commission File Number)

Delaware (State or other jurisdiction of incorporation)

> 14313 North May Avenue, Suite 100, Oklahoma City, Oklahoma (Address of principal executive offices)

73-1521290 (I.R.S. Employer Identification Number)

73134 (Zip code)

(405) 848-8807

(Registrant's telephone number, including area code)

Not Applicable

(Former name or former address, if changed since last report)

Check the appropriate box below if the Form 8-K is intended to simultaneously satisfy the filing obligation of the Registrant under any of the following provisions:

□ Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)

□ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)

□ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 7.01. Regulation FD Disclosure.

Representatives of Gulfport Energy Corporation intend to make a presentation at the 2009 Johnson Rice Energy Conference in New Orleans, Louisiana on Thursday, October 8, 2009 at 8:00 a.m. Central Time. A copy of such presentation is being furnished as Exhibit 99.1 to this Current Report on Form 8-K.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits

Exhibit Number Description

99.1 Gulfport Energy Corporation's presentation at the 2009 Johnson Rice Energy Conference in New Orleans, Louisiana on October 8, 2009.

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

GULFPORT ENERGY CORPORATION

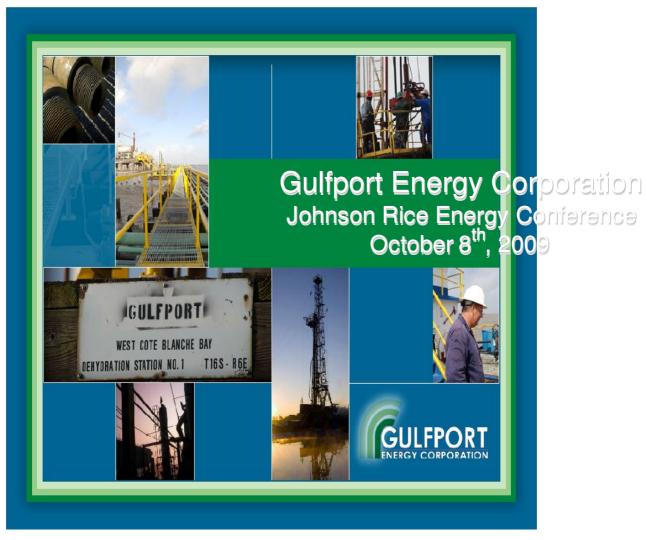

Date: October 8, 2009

By: /s/ MICHAEL G. MOORE

Michael G. Moore Chief Financial Officer

Exhibit Number Description

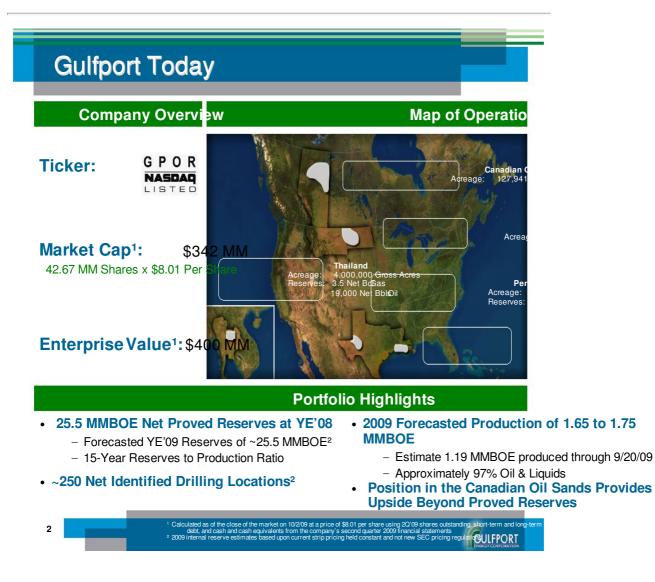

Gulfport Energy Corporation's presentation at the 2009 Johnson Rice Energy Conference in New Orleans, Louisiana on October 8, 99.1 2009.

Forward-Looking Statement

This presentation includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements, other than statements of historical facts, included in this presentation that address activities, events or developments that Gulfport expects or anticipates will or may occur in the future, including such things as future capital expenditures (including the amount and nature thereof), business strategy and measures to implement strategy, competitive strength, goals, expansion and growth of Gulfport's business and operations, plans, market conditions, references to future success, reference to intentions as to future matters and other such matters are forward-looking statements. These statements are based on certain assumptions and analyses made by Gulfport in light of its experience and its perception of historical trends, current conditions and expected future developments as well as other factors it believes are appropriate in the circumstances. However, whether actual results and developments will conform with Gulfport's expectations and predictions is subject to a number of risks and uncertainties, general economic, market, business or weather conditions; the opportunities (or lack thereof) that may be presented to and pursued by Gulfport; competitive actions by other oil and gas companies; changes in laws or regulations; and other factors, many of which are beyond the control of Gulfport. Information concerning these and other factors can be found in the company's filings with the Securities and Exchange Commission, including its Forms 10-K, 10-Q and 8-K. Consequently, all of the forward-looking statements made in this presentation are qualified by these cautionary statements and there can be no assurances that the actual results or developments anticipated by Gulfport will be realized, or even if realized, that they will have the expected consequences to or effects on Gulfport, its business or operations. We have no intention, and disclaim any obligation, to update or revise any forward-looking statements, whether as a result of new information, future results or otherwise.

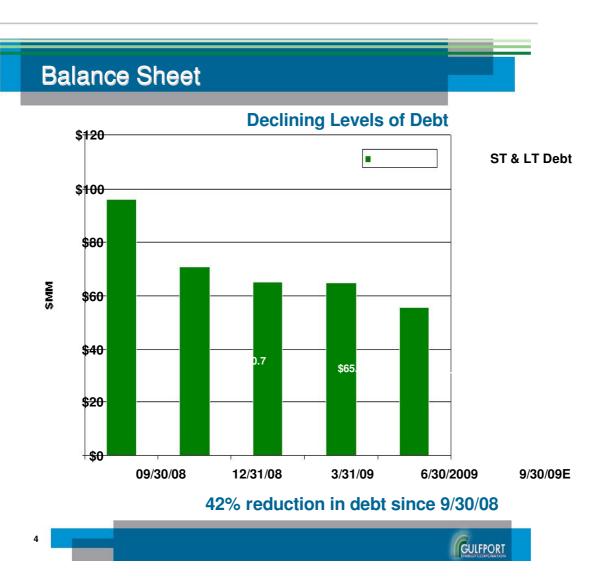

Key Investment Considerations

| | Gulfport has a diverse portfolio of oil-weighted assets |
|-----------------|---|
| - | Active in Southern Louisiana and the Permian, two of America's most prolific oil producing basins |
| 12 | Long-term leases in the Canadian Oil Sands provide long-term optionallity in the largest oil play in the world outside Saudi Arabia |
| 8 75 | Approximately 97% oil and liquids weighted production profile |
| | |
| | - |

| Growt | • | Gulfport's large captured resource and high rate of return opportunities drive visible growth for the foreseeable future |
|-------|-----|---|
| | - | Multi-year drilling inventory exploitable from within cash flow |
| | - | First oil sands project projected to come online in 2012, with each subsequent project bringing the potential for significant reserve and production growth |
| | 125 | Track record of opportunistic acquisitions provides additional upside |
| | | |

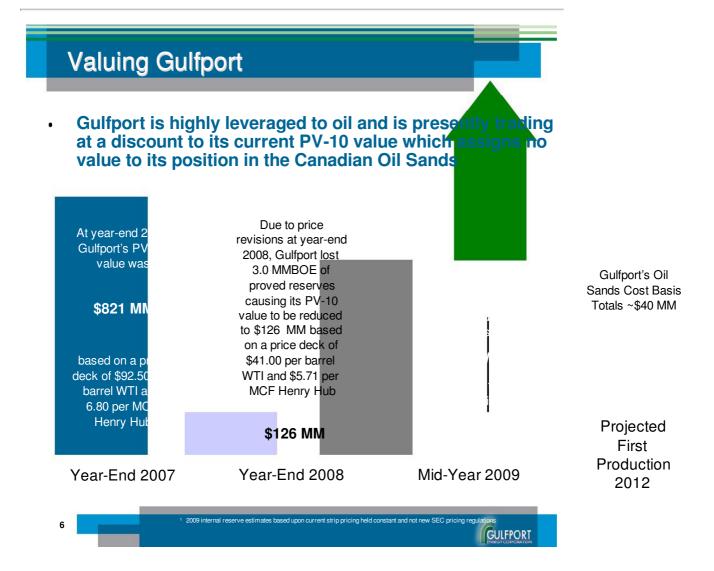

Cost Environment

The combined effect of increased commodity pricing and reduced drilling and completion costs has allowed Gulfport to resume drilling in earnest again

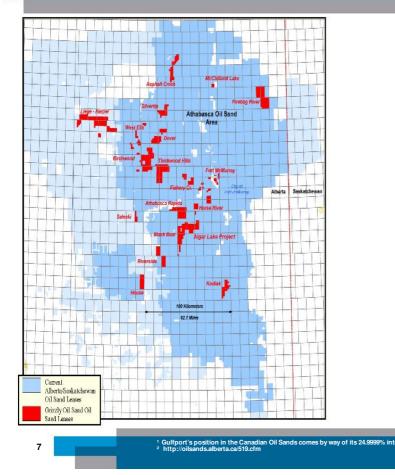

| | SL340 #989 (June 2009) | | | SL340 #9 (October 2 | | |
|---|---------------------------|----------|----|------------------------|----------|--|
| Mobilization/Demobilization | \$ 10,000 | per job | \$ | 35,000 | per job | |
| Drilling Costs-Daywork | \$ 19,000 | per day | \$ | 34,000 | per day | |
| Marine Services, Tugs | \$ 3,300 | per day | \$ | 5,200 | per day | |
| Directional Services | \$ 6,000 | per day | \$ | 18,000 | per day | |
| Cement & Cementing Services | \$ 60,000 | per job | \$ | 100,000 | per job | |
| Completion Rig & Swab Unit | \$ 12,000 | per day | \$ | 17,500 | per day | |
| 5 Surface Casing | \$ 19.50 | per foot | \$ | 44.00 | per foot | |
| 5 ¹ / ₂ Production Casing | \$ 10.60 | per foot | \$ | 23.00 | per foot | |

Not only have costs been reduced, but access to quality crews and labor has also dramatically improved, reducing the risk for potential cost overruns

Gulfport in the Scope of Canada's Oil Sands

- Gulfport holds an interest in approximately 127,941 net acres¹ of oil sands leases
- The Canadian oil sands of Alberta are the world's largest oil play outside of Saudi Arabia with approximately 173 billion² barrels of oil proven to be recoverable using today's technology
- The Athabasca region of the Canadian oil sands play totals 10.4 MM acres and Gulfport's acreage¹ represents approximately 1% of the play

et in Grizzly Oil San

Unlocking Value in the Canadian Oil Sands

 On August 31, 2009 Athabasca Oil Sands Crop (AOSC) and PetroChina announced a deal whereby PetroChina will acquire 60% of AOSC's Dover and MacKay River oil sands projects

AOSC – PetroChina Deal Provides Additional Valuation Metrics for Gulfport's Acreage²

 AOSC – PetroChina acreage shown on map depicts only acreage included in the August 31, 2009 transaction and is only AOSC's overall acreage in the Canadian oil sands.
 ² Gulfport's position in the Canadian Oil Sands comes by way of its 24.9999% interest in Grizzly Oil SandSULFPORT

8

Unlocking Value in the Canadian Oil Sands (cont.)

- ~50,000 acres net to Gulfport's interest¹ are located in the direct vicinity of the AOSC – PetroChina acreage
- This portion of acreage has well control from:
- ~278 wells on or within 1 section of the acreage
- ~578 wells on or within 3 sections of the acreage
- Internal estimates³ of original oil in place on its acreage in direct vicinity of the AO PetroChina acreage represents 19% of the net original oil in place sold in the AOSC-Petrochina deal

Hackberry

2009 Activity Update

- Entered into a joint exploration agreement covering approximately 3,058 net acres adjacent to the East Hackberry field
 - Represents a significant increase in footprint at Hackberry, growing Gulfport's acreage position by approximately 39%
- Plan to drill approximately 4 wells at Hackberry during 2009

Well Cost

Capital cost of approximately \$1.45 MM per well

•

Inventory

- Proved reserves of 2.86 MMBOE¹
- 13 preliminarily permitted drilling locations
- Proprietary 42 square mile 3-D seismic survey shot in 2005

Produ

- Average net production of 539 BOEPD
- Produces approximately 13% of Gulfport's total net production
- 94% oil weighted production mix

Bakken Shale

- Bakken Shale
 - ~900 net acres
- Located in Montana, North Dakota, South Dakota and Saskatchewan, the Bakken formation covers over 200,000 square miles of the subsurface of the Williston Basin
 - In April 2008, the USGS released a report estimating there to be 3.0 to 4.3 billion barrels of undiscovered, technically recoverable oil in the Bakken formation

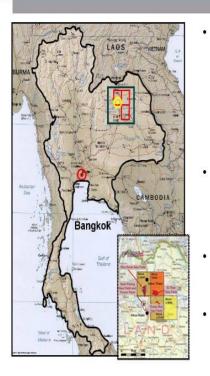

- Based upon the identified geologic trends, Gulfport began actively pursuing acreage early in the play's development, effectively achieving first mover advantages
- New technology is key to field development
 - Extensive vertical faulting combined with the application of horizontal drilling techniques and advancements in fracturing technology have helped drive development
- In 1H'09, Gulfport monetized 12,270 net acres of leases in the Bakken for \$13.0 million
 - ~6,740 net acres remained, kept interests in 4 gross wells, and retained up to a 7.5% ORRI in the acreage sold, proportionately reduced to Gulfport's ownership interest after delivering 80% NRI to the purchaser
- In 2H'09, Gulfport monetized 5,721 net acres of leases in the Bakken for \$5.75 million

GULFPORT

 Retained ~900 net acres, interests in 4 gross wells, and up to a 2.5% ORRI in the acreage sold, proportionately reduced to Gulfport's ownership interest after delivering 81% NRI to the purchaser

19

Thailand

Through an indirect equity investment in APICO, Gulfport has gained exposure to a natural gas play in northeast Thailand

 Third party engineers Gaffney Cline credit wells producing in the Phu Horm gas field with approximately ¹/₂ TCF¹ of reserves

Net to Gulfport's interest, total proved reserves are estimated to be 3.5 Bcf of natural gas and 19,000 barrels of oil

Exploratory potential of four concession blocks totaling approximately 4 MM acres provides significant upside

- APICO has identified several high-quality exploration targets

Gross production in the Phu Horm gas field, of which Gulfport indirectly owns 0.7%, averaged 83 MMcf per day of natural gas and 433 Bbls per day of oil in 2008

Long-term gas sales contract in place with Thai government in place, locking in favorable pricing

- Pricing tied to Singapore Medium Sulfur Fuel Oil (MSFO

Shoot a 3-D seismic survey of Blocks L27/43 and L16/50 (shown as the lower brown and yellow blocks on the map)
