About the Annual Meeting

Who is soliciting my vote?

The board of directors of Gulfport Energy Corporation, which we refer to as “Gulfport,” the “Company” and “we” in this proxy statement, is soliciting your vote at the 2010 Annual Meeting of Stockholders.

What am I voting on?

You are voting on:

- The election of directors (*see page 5*);
- The ratification of Grant Thornton LLP as our independent auditors for 2010 (*see page 33*); and
- Any other business properly coming before the meeting.

How does the board of directors recommend that I vote my shares?

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of our board of directors. The board of directors’ recommendation can be found with the description of each item in this proxy statement. In summary, the board of directors recommends a vote:

- FOR the proposal to elect nominated directors; and
- FOR the proposal to ratify Grant Thornton LLP as the Company’s independent auditors for 2010.

Who is entitled to vote?

You may vote if you were the record owner of our common stock as of the close of business on April 26, 2010. Each share of common stock is entitled to one vote. As of April 26, 2010, we had 42,710,874 shares of common stock outstanding and entitled to vote, excluding 112,446 shares of our restricted common stock granted under our Amended and Restated 2005 Stock Incentive Plan. There is no cumulative voting.

How many votes must be present to hold the meeting?

Your shares are counted as present at the Annual Meeting if you attend the meeting and vote in person or if you properly return a proxy by mail. In order for us to hold our meeting, holders of a majority of the voting power of our outstanding shares of common stock as of the close of business on April 26, 2010 must be present in person or by proxy at the meeting. This is referred to as a quorum. Abstentions and broker non-votes will be counted for purposes of establishing a quorum at the meeting.

What is a broker non-vote?

If a broker does not have discretion to vote shares held in street name on a particular proposal and does not receive instructions from the beneficial owner on how to vote those shares, the broker may return the proxy card without voting on that proposal. This is known as a *broker non-vote*. No broker may vote your shares on the proposal to elect directors without your specific instructions.

How many votes are needed to approve each of the proposals?

The five nominees for election as directors at the Annual Meeting who receive the highest number of “FOR” votes will be elected as directors. This is called plurality voting. Unless you indicate otherwise on your proxy card, the persons named as your proxies will vote your shares FOR all the nominees for director named in this proxy statement.

[Table of Contents](#)

All other proposals require the affirmative “FOR” vote of a majority of the votes cast by the stockholders present in person or represented by proxy at the Annual Meeting and entitled to vote thereon. Only votes for or against such other proposals will be counted as votes cast. Abstentions and broker non-votes will not be counted for voting purposes and will have no effect on the result of the vote on such other proposals.

How do I vote?

You can vote either *in person* at the meeting or *by proxy* without attending the meeting.

To vote by proxy, you must fill out the enclosed *proxy card*, date and sign it, and return it in the enclosed postage-paid envelope.

Even if you plan to attend the meeting, we encourage you to vote your shares by proxy. If you plan to vote in person at the Annual Meeting, and you hold your stock in street name, you must obtain a proxy from your broker and bring that proxy to the meeting.

Can I change my vote?

Yes. You can change or revoke your vote at any time before the polls close at the Annual Meeting. You can do this by:

- Signing another proxy card with a later date and returning it to us prior to the meeting;
- Sending our Corporate Secretary a written document revoking your earlier proxy; or
- Voting again at the meeting.

Who counts the votes?

We have hired Computershare Trust Company, N.A., our transfer agent, to count the votes represented by proxies cast by mail or ballot. Employees of Computershare Trust Company, N.A. will act as inspectors of election.

Will my vote be confidential?

Yes. As a matter of Company policy, proxies, ballots and voting tabulations that identify individual stockholders are treated as confidential. Only the tabulation agent and the inspectors of election have access to your vote. Directors and employees of the Company may see your vote only if there is a contested proxy solicitation, as required by law or in certain other special circumstances.

Will my shares be voted if I don't provide my proxy and don't attend the Annual Meeting?

If you do not provide a proxy or vote your shares held in your name, your shares will not be voted.

If you hold your shares in street name, your broker may be able to vote your shares for certain “routine” matters even if you do not provide the broker with voting instructions. The ratification of Grant Thornton LLP as our independent auditors for 2010 is considered routine. For matters not considered “routine,” if you do not give your broker instructions on how to vote your shares, the broker will return the proxy card without voting on that proposal. This is a broker non-vote. The proposal to elect directors is not considered routine. As a result, no broker may vote your shares on the proposal to elect directors without your specific instructions.

How are votes counted?

In the election of directors, you may vote “FOR” all of the nominees or your vote may be “WITHHELD” with respect to one or more of the nominees. For any other proposal, you may vote “FOR,” “AGAINST” or “ABSTAIN.”

Table of Contents

What if I return my proxy but don't vote for some of the matters listed on my proxy card?

If you return a signed proxy card without indicating your vote, your shares will be voted FOR the director nominees listed on the card and FOR the ratification of Grant Thornton LLP as our independent auditors for 2010.

Could other matters be decided at the Annual Meeting?

We have not received any stockholder proposals and are not aware of any other matters that will be considered at the Annual Meeting. If any other matters arise at the Annual Meeting, the persons named in your proxies will vote in accordance with their best judgment.

Who can attend the meeting?

The Annual Meeting is open to all holders of our common stock.

What do I need to bring to attend the Annual Meeting?

You will need proof of ownership of our common stock to enter the meeting. If your shares are in the name of your broker or bank or other nominee, you will need to bring evidence of your stock ownership, such as your most recent brokerage statement. All stockholders will be required to present valid picture identification. **IF YOU DO NOT HAVE VALID PICTURE IDENTIFICATION AND PROOF THAT YOU OWN SHARES OF OUR STOCK, YOU MAY NOT BE ADMITTED INTO THE MEETING.**

How can I access the Company's proxy materials and annual report electronically?

This proxy statement and the Company's 2009 Annual Report to Stockholders are available on the Company's website at www.gulfportenergy.com/proxy.

Board of Directors Information

What is the makeup of the board of directors and how often are the members elected?

Our board of directors consists of five members who are elected annually. The majority of these directors are independent under the Nasdaq listing standards.

What if a nominee is unable or unwilling to serve?

That is not expected to occur. If it does, shares represented by proxies will be voted for a substitute nominated by the board of directors.

How are directors compensated?

Our policy adopted in the second quarter of 2007 is that members of our board of directors who are also our officers or employees do not receive compensation for their services as directors.

Equity Compensation

We provide our non-employee directors with equity compensation under our Amended and Restated 2005 Stock Incentive Plan. Our current non-employee directors are Donald L. Dillingham, Scott E. Streller and David L. Houston. As additional compensation and incentive, in November 2009, we granted 6,666 shares of our restricted common stock to each of Messrs. Streller and Houston under our Amended and Restated 2005 Stock Incentive Plan, which shares vest in 12 substantially equal quarterly installments beginning on December 17, 2009. In March 2008, we granted 6,666 shares of our restricted common stock to Mr. Dillingham in connection with his appointment to our board of directors in November 2007, of which 740 shares vested on April 1, 2008 and the remaining shares vest in 36 equal monthly installments beginning on May 1, 2008. Due to his receipt of the 2008 grant of our restricted common stock, Mr. Dillingham did not receive any equity awards in 2009. Further details regarding our director compensation in 2009 are set forth under the heading "Director Compensation" below.

Cash Compensation

In 2009, we paid our non-employee directors a monthly retainer of \$1,000 and a per meeting in-person attendance fee of \$500 and reimbursed all ordinary and necessary expenses incurred by non-employee directors in the conduct of our business. In addition to the fees described above, each committee member of our board of directors receives \$3,000 per year for his service on each committee, provided that the committee chairman receives \$4,500 per year per committee. As of the date of this proxy statement, no changes to the cash compensation structure for our non-employee directors have been made for 2010.

Insurance and Indemnification Contracts

We provide liability insurance for our directors and officers at a current annual cost of approximately \$285,000 and have contractual indemnification arrangements with our directors and certain of our officers under which we agree, in certain circumstances, to compensate them for costs and liabilities incurred in actions brought against them while acting as directors or officers of the Company.

How often did the board of directors meet in 2009?

The board of directors met six times in 2009. In addition to these meetings, the board of directors adopted resolutions by unanimous written consent. Each director attended at least 75% of the aggregate meetings of the board of directors and the meetings of the committees on which he served.

Yes. The charters for our Audit Committee, Compensation Committee and Nominating Committee can be found on our website at www.gulfportenergy.com under the “Corporate Governance” caption. You may also obtain copies of these charters, as well as our Code of Business Conduct and Ethics, which is described below, by writing to our Corporate Secretary, Michael G. Moore, at Gulfport Energy Corporation, 14313 N. May Avenue, Suite 100, Oklahoma City, Oklahoma 73134.

Corporate Governance Matters and Communications with the Board

Who are our independent directors?

The board of directors has determined that Donald L. Dillingham, David L. Houston and Scott E. Streller meet the standards regarding independence set forth in the Nasdaq listing standards and are free of any material relationship with the Company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company).

Our board of directors has determined that each member of the Audit Committee is independent for purposes of serving on such committee under the Nasdaq listing standards and applicable federal law. In addition, our board of directors has determined that each current member of the Audit Committee is financially literate under the Nasdaq listing standards and that each of Mr. Houston, who serves as the Chairman of the Audit Committee, and Mr. Dillingham qualifies as the “audit committee financial expert,” as such term is defined in Item 407(d) of Regulation S-K.

Our board of directors has also determined that each member of the Compensation Committee and the Nominating Committee meets the independence requirements applicable to those committees under the Nasdaq rules. In addition, our board of directors determined that each member of our compensation committee is an “outside director” in accordance with Section 162(m) of the Internal Revenue Code and a “non-employee director” in accordance with Rule 16b-3 under the Securities Exchange Act of 1934, as amended.

Do our non-management directors meet separately without management?

Our non-management directors have the opportunity to meet in an executive session following each regularly scheduled meeting of the board of directors. During 2009, our non-management directors met in an executive session on November 12, 2009.

How can I communicate with the board of directors?

Individuals may communicate with our board of directors or individual directors by writing to our Corporate Secretary, Michael G. Moore, at Gulfport Energy Corporation, 14313 N. May Avenue, Suite 100, Oklahoma City, Oklahoma 73134. Our Corporate Secretary will review all such correspondence and forward to our board of directors a summary of all such correspondence and copies of all correspondence that, in the opinion of our Corporate Secretary, relates to the functions of our board of directors or the compensation committee thereof or that he otherwise determines requires their attention. Directors may review a log of all such correspondence received by us and request copies. Concerns relating to accounting, internal control over financial reporting or auditing matters will be immediately brought to the attention of the chairman of the audit committee and handled in accordance with the audit committee procedures established with respect to such matters.

Do directors attend the Annual Meeting?

Recognizing that director attendance at our Annual Meeting can provide our stockholders with an opportunity to communicate with directors about issues affecting the Company, we actively encourage our directors to attend the Annual Meeting of Stockholders. Four of our directors attended the 2009 Annual Meeting of Stockholders.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics designed to help directors and employees resolve ethical issues. Our Code of Business Conduct and Ethics applies to all directors and employees, including the Chief Executive Officer, the Chief Financial Officer and all senior financial officers. Our Code of Business Conduct and Ethics covers various topics including, but not limited to, conflicts of interest, fair dealing, discrimination and harassment, confidentiality, compliance procedures and employee complaint procedures. Our Code of Business Conduct and Ethics is posted on our website under the “Investor Relations—Corporate Governance” caption.

Nominating Process For Directors, Director Qualifications and Review of Director Nominees

The Nominating Committee is comprised of three non-employee directors, all of whom are independent under Nasdaq listing standards. As provided by the Nominating Committee’s charter, our Nominating Committee identifies, investigates and recommends to our board of directors candidates with the goal of creating a balance of knowledge, experience and diversity. Generally, the committee identifies candidates through the personal, business and organizational contacts of the directors and management.

Potential directors should possess the highest personal and professional ethics, integrity and values, and be committed to representing the interests of our stockholders. In addition to reviewing a candidate’s background and accomplishments, candidates for director nominees are reviewed in the context of the current composition of our board of directors and the evolving needs of our stockholders’ businesses. It is the policy of our board of directors that at all times at least a majority of its members meets the standards of independence promulgated by Nasdaq and the Securities and Exchange Commission, or the SEC, and that all members reflect a range of talents, ages, skills and expertise, particularly in the areas of accounting and finance, management, leadership and oil and gas related industries sufficient to provide sound and prudent guidance with respect to our stockholders’ operations and interests. In addition to the foregoing factors, our Nominating Committee considers diversity in its evaluation of candidates for board membership. Although our board of directors does not have a formal diversity policy, our board believes that diversity with respect to viewpoint, skills and experience should be an important factor in board composition. Our Nominating Committee ensures that diversity considerations are discussed in connection with each potential nominee, as well as on a periodic basis in connection with its periodic review of the composition of the board and the size of the board as a whole.

We also require that the members of our board of directors be able to dedicate the time and resources sufficient to ensure the diligent performance of their duties on our behalf, including attending all meetings of the board of directors and applicable committee meetings. In accordance with its charter, our Nominating Committee periodically reviews the criteria for the selection of directors to serve on our board and recommends any proposed changes to our board of directors for approval.

Our board of directors will consider stockholder nominations for director candidates upon written submission of such recommendation to our Corporate Secretary along with, among other things, the nominee’s qualifications and certain biographical information regarding the nominee, such as the nominee’s written consent to serving as a director if elected and being named in the proxy or information statement and certain information regarding the status of the stockholder submitting the recommendation, all in the manner required by our amended and restated bylaws and the applicable rules and regulations promulgated under the Securities Exchange Act of 1934, as amended. Following verification of the stockholder status of persons proposing candidates, recommendations will be aggregated and considered by our board of directors at a regularly scheduled or special meeting. If any materials are provided by a stockholder in connection with the nomination of a director candidate, such materials will be forwarded to our board of directors.

Our board of directors may also review materials provided by professional search firms or other parties in connection with a nominee who is not proposed by a stockholder. In evaluating such nominations, our board of

Table of Contents

directors will seek to achieve a balance of knowledge, experience and capability on the board. Our board of directors uses the same criteria for evaluating candidates nominated by stockholders as it does for those proposed by current board members, professional search firms and other persons. After completing its evaluation, our board of directors approves the final slate of director nominees.

Our Nominating Committee approved the director nominees submitted for election at this Annual Meeting. Each nominee is a current board member and brings a strong and unique background and set of skills to our board of directors, giving our board of directors as a whole competence and experience in a variety of areas, including corporate governance and board service, executive management, oil and natural gas industry, accounting and finance and risk assessment and management. Specifically, in nominating the current board members for re-election at this Annual Meeting, our Nominating Committee considered such directors' past service on our board and the information discussed in each of the directors' individual biographies set forth on page 5 above. In particular, with regard to Messrs. Liddell and Palm, our Nominating Committee considered their respective public company experience as executive officers and directors, as well as their strong oil and natural gas backgrounds. With respect to Mr. Palm, our Nominating Committee also considered his current and prior service with various state and independent advisory boards and committees in the petroleum industry. With regard to Mr. Dillingham, our Nominating Committee considered his strong background in finance and risk assessment and management developed as part of his career as a registered investment advisor and portfolio manager, as well as his academic experience. With regard to Messrs. Houston and Streller, our Nominating Committee considered their respective business backgrounds and risk assessment skills.

Director Leadership Structure

Since December 2005, the positions of Chairman of the Board and Chief Executive Officer have been held by two different individuals. Separating these positions allows our Chief Executive Officer to focus on our day-to-day business and operations, while allowing our Chairman of the Board to lead the board in its fundamental role of providing advice to and oversight of management. In accordance with our bylaws, the position of the Chairman of the Board is an executive officer position and not an independent director position. The Chairman of the Board provides leadership to our board of directors and works with the board of directors to define its structure and activities in the fulfillment of its responsibilities. The Chairman of the Board sets the board agendas, with the input from other members of the board and our management, facilitates communications among and information flow to directors, has the power to call special meetings of our board of directors and stockholders and presides at meetings of our board of directors and stockholders. The Chairman of the Board also advises and counsels our Chief Executive Officer and other officers. Our board of directors does not have a position of a lead director.

We believe that our directors bring a broad range of leadership experience to the boardroom and regularly contribute to the thoughtful discussion involved in effectively overseeing the business and affairs of our company. We believe that the atmosphere of our board is collegial, that all board members are well engaged in their responsibilities, and that all board members express their views and consider the opinions expressed by other directors. We do not believe that appointing an independent board chairman, or a lead or presiding director, would improve the performance of our board of directors. Further, three out of five directors on our board are independent under the Nasdaq listing standards and SEC rules. We believe that all of our independent directors have demonstrated leadership in business enterprises and are familiar with board processes. Our independent directors are involved in the leadership structure of our board by serving on our Audit, Nominating and Compensation committees, each having a separate independent chairperson. Specifically, the chair of our Audit Committee oversees the accounting and financial reporting processes, as well as compliance with legal and regulatory requirements. The chair of our Compensation Committee oversees the annual performance evaluation of our Chief Executive Officer and our compensation policies and practices and their impact on risk and risk management. The chair of our Nominating Committee monitors matters such as the composition of the board and its committees, board performance and best practices in corporate governance. As such, each committee chair provides independent leadership for purposes of many important functions delegated by our board of directors to such committee.

Board of Director's Role in Risk Oversight

As an exploration and production company, we face a number of risks, including risks associated with supply of and demand for oil and natural gas, volatility of oil and natural gas prices, exploring for, developing, producing and delivering oil and natural gas, declining production, environmental and other government regulations and taxes, weather conditions, including hurricanes, that can affect oil and natural gas operations over a wide area, political instability or armed conflict in oil and natural gas producing regions and overall economic environment. Management is responsible for the day-to-day management of risks we face as the company, while our board of directors, as a whole and through its committees, has responsibility for the oversight of risk management. In its risk oversight role, our board of directors has the responsibility to satisfy itself that the risk management processes designed and implemented by management are adequate and functioning as designed.

Our board of directors believes that full and open communication between management and the board of directors is essential for effective risk management and oversight. Our Chairman of the Board meets regularly with our Chief Executive Officer and other senior officers to discuss strategy and risks facing our company. Senior management regularly attends the board meetings and is available to address any questions or concerns raised by the board on risk management-related and any other matters. At least quarterly, our board of directors receives presentations from senior management on strategic matters involving our operations. During such meetings, our board of directors also discusses strategies, key challenges, and risks and opportunities for the company with senior management.

While our board of directors is ultimately responsible for risk oversight at our company, our three committees assist the board in fulfilling its oversight responsibilities in certain areas of risk. Our Audit Committee assists the board in fulfilling its oversight responsibilities with respect to risk management in the areas of financial reporting, internal controls and compliance with legal and regulatory requirements, and discusses policies with respect to risk assessment and risk management. Our Compensation Committee assists the board in fulfilling its oversight responsibilities with respect to the management of risks arising from our compensation policies and programs. Our Nominating Committee assists the board in fulfilling its oversight responsibilities with respect to the management of risks associated with board organization, membership and structure, succession planning for our directors and executive officers, and corporate governance.

Audit Committee Report

The Audit Committee is responsible for providing independent, objective oversight for the integrity of the Company's financial reporting process and internal control system. Other primary responsibilities of the Audit Committee include the review, oversight and appraisal of the qualifications, independence and audit performance of the Company's independent registered public accounting firm and providing an open venue for communication among the independent registered public accounting firm, financial and senior management, our internal auditors and the board of directors of the Company. A more detailed description of the responsibilities of the Audit Committee is set forth in its written charter, which is posted on our website at www.gulfportenergy.com. The following report summarizes certain of the Audit Committee's activities with respect to its responsibilities during 2009.

Review with Management and Independent Registered Public Accounting Firm. The Audit Committee has reviewed and discussed with management and Grant Thornton LLP, an independent registered public accounting firm, the audited consolidated financial statements of the Company for the year ended December 31, 2009.

Controls and Procedures. Management has established and maintains a system of disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed by our Company in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and includes controls and procedures designed to provide reasonable assurance that information required to be disclosed by us in those reports is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. As of December 31, 2009, management conducted an evaluation of our disclosure controls and procedures. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to provide reasonable assurance that the information required to be disclosed by us in the reports we file or submit under the Securities and Exchange Act, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. The Audit Committee discussed with management and Grant Thornton LLP the quality and adequacy of the Company's disclosure controls and procedures.

Management has also established and maintains a system of internal controls over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. These internal controls are designed to provide reasonable assurance that the reported financial information is presented fairly, that disclosures are adequate and that the judgments inherent in the preparation of financial statements are reasonable. Management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on management's evaluation under the framework in *Internal Control—Integrated Framework*, management concluded that our internal control over financial reporting was effective as of December 31, 2009, as discussed in more detail in Management's Report on Internal Control Over Financial Reporting, which was included in our Annual Report on Form 10-K for the year ended December 31, 2009, filed with the SEC on March 12, 2010. Our internal control over financial reporting as of December 31, 2009 has been audited by Grant Thornton LLP, as stated in its attestation report, which was included in our Annual Report on Form 10-K for the year ended December 31, 2009, filed with the SEC on March 12, 2010. The Audit Committee reviewed and discussed with management and Grant Thornton LLP the Company's system of internal control over financial reporting in compliance with Section 404 of the Sarbanes-Oxley Act of 2002.

Discussions with Independent Auditing Firm. The Audit Committee has discussed with Grant Thornton LLP, independent auditors for the Company, the matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended. The Audit Committee has received the written disclosures and the letter from Grant Thornton LLP required by applicable requirements of the Public Company

Executive Compensation

Compensation Discussion And Analysis

Compensation Practices

Until the end of 2007, all compensation decisions for our Chief Executive Officer and our Chief Financial Officer (other than decisions relating to our equity compensation plans) were made by our Chairman of the Board. Our Chairman of the Board has been compensated as provided in his employment agreement with our company, which was effective as of June 1, 1999. Although our board of directors established a compensation committee effective as of February 14, 2006, until the end of 2007, the role of the compensation committee was limited, as we relied on the “controlled company” exemption and applicable transition rules provided by the Nasdaq listing standards. The compensation committee is currently composed entirely of independent directors. Since the end of 2007, the compensation committee has been primarily responsible for establishing, implementing and monitoring our compensation programs, including those applicable to our executive officers. In particular, the compensation committee’s current role is to oversee, on behalf of our board of directors, our compensation and benefit plans and policies, administer our stock plans (including reviewing and approving equity grants to directors and executive officers) and review and approve annually all compensation decisions relating to our Chief Executive Officer and make recommendations to our board of directors and Chairman of the Board with respect to other executive officer compensation. The compensation committee meets at least annually to review executive compensation programs, approve compensation levels, consider performance targets, review management performance and administer our equity-based compensation plans. The compensation committee operates in accordance with its charter, adopted effective as of February 14, 2006, which sets forth its powers and responsibilities described in more detail under the “Corporate Governance— Compensation Committee.”

Compensation Philosophy and Objectives

The objectives of our compensation program are to:

- attract and retain key executives;
- align the interests of our executives with those of our stockholders; and
- motivate and reward individual performance and contributions.

Compensation Benchmarking

In the fall of 2007, the compensation committee engaged Equilar, an outside consultant, to perform a compensation survey, based on the available compensation data for fiscal 2006. In August 2009, the compensation committee engaged Equilar to perform an updated compensation survey to reflect present trends. The 2009 Equilar survey included the following industry peer companies: Abraxas Petroleum Corporation, Arena Resources Inc., Brigham Exploration Company, Carrizo Oil & Gas, Inc., Chesapeake Energy Corporation, Concho Resources Inc., Devon Energy Corporation, Energy XXI (Bermuda) LTD, Goodrich Petroleum Corporation, Ram Energy Resources Inc., Sandridge Energy Inc., St. Mary Land & Exploration Company, Stone Energy Corporation, Swift Energy Company and Whiting Petroleum Corporation. Following its review of the 2009 survey, the compensation committee discussed and evaluated the 2009 compensation packages of our Chairman of the Board, Chief Executive Officer and Chief Financial Officer in light of our performance, the value these executives bring to our company, market trends, peer benchmarking, economic climate, their respective experience and leadership roles and employee retention considerations. Based on such evaluation, the compensation committee granted 2009 discretionary bonuses for these executive officers, but otherwise determined not to make any substantive changes to their current compensation structure. The elements of our compensation structure are discussed in more detail below.

Table of Contents

Compensation Policy

The key elements of our compensation program are salary, annual bonus and long-term incentive compensation. We use these elements to meet our compensation objectives as follows:

- Attract and retain key executives. We believe that to attract and retain talented executives, we must offer compensation that is competitive. We also believe that our Chairman of the Board, Mike Liddell, our Chief Executive Officer, James D. Palm, and our Chief Financial Officer, Michael G. Moore, are critical to the long-term success of our company. To facilitate the retention of our Chairman of the Board and our Chief Executive Officer, we entered into an employment agreement with Mr. Liddell in May of 1999 and into an oral agreement with Mr. Palm with respect to their respective compensations and benefits. We believe that the terms of these agreements are reasonable as compared to similarly situated executives at peer group companies.
- Align the interests of our executives with those of our stockholders. In the past, we used both options and restricted stock awards to provide long-term incentive compensation and to align the financial interests of our executives with those of our stockholders. In 2009, the compensation committee did not grant any equity awards to our executive officers. In March 2010, the compensation committee granted a restricted stock award of 66,667 shares of restricted common stock to our Chairman of the Board under our Amended and Restated 2005 Stock Incentive Plan, which shares vest in 12 substantially equal quarterly installments, beginning on March 18, 2010. It is anticipated that in the future the compensation committee will continue to structure our long-term incentive compensation in the form of restricted stock awards. For a discussion of the Company's long-term incentive policy, see "Long Term Incentive Compensation" below.
 - *Stock Options.* Stock options represent the right of an option holder to buy shares of our common stock at an exercise price equal to the market value of our common stock on the date of grant. Under our outstanding stock options, the right to buy underlying shares generally vests in 36 substantially equal monthly installments from the date of grant, except that certain options vest in five substantially equal annual installments beginning on the first anniversary of the date of grant. We awarded these stock options in order to align compensation with company performance as the options become valuable to the executive only if the stock price increases from the date of grant. Also, stock options require a long-term commitment by executives to realize the appreciation potential of the options.
 - *Restricted Stock Awards.* Restricted stock granted to our executive officers prior to 2008 generally vests in 36 substantially equal monthly installments. In December 2008, the compensation committee granted a restricted stock award of 66,667 shares of restricted common stock to our Chief Executive Officer under our Amended and Restated 2005 Stock Incentive Plan. Of this amount, 5,556 shares vested on December 17, 2008 and the remaining shares vest in 11 substantially equal quarterly installments beginning on March 18, 2009. We did not grant any equity awards to any of our executive officers in 2009. As additional compensation and incentive, in March 2010, the compensation committee granted a restricted stock award of 66,667 shares of restricted common stock to our Chairman of the Board under our Amended and Restated 2005 Stock Incentive Plan, which shares vest in 12 substantially equal quarterly installments, beginning on March 18, 2010. Restricted stock awards ensure that our executives have a continuing stake in the long-term success of our company as the value of the award will depend on the stock price at the time of vesting.
- Motivate and reward individual performance and contributions. The Company's evaluation of the individual performance of each executive officer affects most aspects of the executive's compensation. Individual performance and level of responsibility are considered in determining an executive's annual salary, and are important factors in deciding discretionary bonuses and equity awards.

Compensation Components

Base Salary

Salaries for our Chairman of the Board and our Chief Executive Officer are provided in their respective agreements described in more detail under the heading "Employment Agreements" below. The annual base salary for our Chairman of the Board is increased annually in an amount equal to any increase in the cost of living as determined in accordance with his employment agreement. The respective salaries for our Chief Executive Officer and Chief Financial Officer for 2009 were determined by our compensation committee and our Chairman of the Board, respectively. With respect to the 2009 salaries of our Chief Executive Officer and our Chief Financial Officer, the various factors considered included the recommendation of our Chairman of the Board, the compensation of executive officers of comparable companies within the oil and natural gas industry, the performance of such executive officer and changes in responsibilities, the experience, leadership and potential future contributions to the Company and, in the case of our Chief Executive Officer, his oral employment agreement with the Company. In the future, we anticipate that the compensation committee will continue to review the base salaries of our named executive officers on an annual basis, subject to the terms of any employment agreements that we may have with our named executive officers, and will consider similar factors, as well as the recommendation of our Chairman of the Board with respect to base salaries of other named executive officers. During 2009, the annual base salaries for our Chairman of the Board, our Chief Executive Officer and our Chief Financial Officer were \$261,373, \$225,000 and \$300,000, respectively.

In November 2009, the compensation committee reviewed and considered salaries for our Chairman of the Board, Chief Executive Officer and Chief Financial Officer for 2010, taking into consideration their 2009 compensation packages and the compensation survey prepared by Equilar in the fall of 2009. The compensation committee also considered Company performance, value the executives bring to the Company, market trends, peer benchmarking, economic climate, experience, leadership and employee retention and, in the case of our Chairman of the Board and Chief Executive Officer, the terms of their respective agreements with the Company. Following such review, the compensation committee adjusted the base salary of our Chairman of the Board for the increase in cost of living, as provided by his employment agreement, and to date has made no adjustments to the respective base salaries of our Chief Executive Officer and Chief Financial Officer for 2010.

Discretionary Bonus

The compensation committee determined the year end discretionary bonuses that were paid to our named executive officers based on their respective performances in 2009 and other factors, including Company performance in 2009, the value the executives bring to the Company, market trends, peer benchmarking, economic climate, experience, leadership and employee retention. The compensation committee determined that our Chief Executive Officer would receive a year-end discretionary bonus of \$50,000, and our Chief Financial Officer would receive a year-end discretionary bonus of \$125,000 in recognition of his services to the Company. In addition, the compensation committee determined that our Chairman of the Board would receive a 2009 discretionary bonus of \$40,000 similar to prior annual bonuses paid to our Chairman of the Board. No specific financial or operational performance targets were set by the compensation committee for 2009 or 2010 with respect to discretionary bonuses or other executive compensation.

Long-Term Incentive Compensation

2009 Awards. In November 2009, the compensation committee reviewed and evaluated our Chief Executive Officer's performance during 2009. As part of this process, the committee considered a 2009 study by a nationally recognized compensation consulting firm, Equilar, with respect to executive and board of directors' compensation as it relates to a selected industry peer group. For more information regarding the Equilar study and our peer group, see "Compensation Benchmarking" above. The compensation committee also considered the current status of the energy sector with a special focus on the Company's peer group and the national and global economic conditions and reviewed the Chief Executive Officer's outstanding equity awards, including his 2008

Table of Contents

award of our restricted common stock, and related exercise prices. Following a thorough review of the 2009 Equilar study, and taking into consideration the factors mentioned above and then current economic conditions, the compensation committee determined not to make any new equity awards for Mr. Palm or any of our other executive officers in 2009. As additional compensation and incentive, in March 2010, the compensation committee granted a restricted stock award of 66,667 shares of restricted common stock to our Chairman of the Board under our Amended and Restated 2005 Stock Incentive Plan, which shares vest in 12 substantially equal quarterly installments, beginning on March 18, 2010.

Long-Term Incentive Policy. Although in the past, we awarded both options and restricted stock as part of our long-term incentive compensation program, our board of directors and the compensation committee believe that restricted stock awards are an essential component of our compensation strategy, and we intend to continue offering such awards in the future. Further, we anticipate that any equity awards granted to our executive officers during the remainder of 2010 will be in the form of restricted stock. The Committee may also determine to issue other forms of stock-based awards to our named executive officers or other eligible participants under our Amended and Restated 2005 Stock Incentive Plan or other equity incentive plans in effect at that time. Our current equity incentive plan is described below under the heading “Amended and Restated 2005 Stock Incentive Plan.”

In November 2009, the compensation committee reviewed and discussed the Company’s current equity compensation plan and objectives. The compensation committee considered the advisability of developing a plan for appropriate benchmarking with respect to the Company’s equity award program and the need to issue new equity awards as old awards become fully vested, so as to provide future incentives to our executive officers. Upon review, the compensation committee did not establish any objective performance targets or make any other changes to its long-term incentive policy for 2010.

Perquisites and Other Personal Benefits

Our company provides certain of our named executive officers with a limited number of perquisites or other personal benefits, primarily consisting of life insurance premiums and in the case of our Chief Financial Officer, a company vehicle, that we believe help provide a competitive package of compensation and benefits. The value of these benefits is disclosed in the Summary Compensation Table.

Broad-Based Employee Benefits

- 401(k) Plan. We have retirement savings plan in which our named executive officers currently participate. The retirement plan is a tax qualified 401(k) plan that covers all eligible employees including the named executive officers. Under the plan, we make a safe harbor contribution equal to 3% of each eligible employee’s gross annual compensation for the prior calendar year. We also have the ability to make an additional, discretionary contribution based on each eligible employee’s gross annual compensation for the prior calendar year. Both contributions are made regardless of employee’s deferrals into the plan. In 2009, we made a safe harbor and discretionary contribution totaling 6% for eligible employees, subject to certain limitations provided by our 401(k) plan and Internal Revenue Services regulations. All contributions made by us on behalf of an employee are 100% vested when contributed. For more details regarding our 401(k) plan, see “Retirement Plans—401(k) Plan” below.
- Our named executive officers are eligible to participate in all of our other employee benefit plans which include medical, dental, group life, disability and accidental death and dismemberment insurance, in each case on the same basis as all other employees.

Employment Agreements

In May 1999, we entered into an employment agreement with Mike Liddell, our Chairman of the Board. The agreement had an initial five-year term and automatically renews for successive one-year terms thereafter. The

Table of Contents

agreement provides for an annual base salary of \$200,000, adjusted for cost of living increases. As a result of these increases, Mr. Liddell's base salary had risen to \$261,373 effective as of June 1, 2009. In the event that Mr. Liddell's employment is terminated by us without cause, Mr. Liddell would be entitled to receive twelve months of his then current base salary, and all of his then unexercisable options would become exercisable. The agreement also restricts Mr. Liddell's use or disclosure of any of our confidential information during the term of the agreement and for a period of five years thereafter.

We have entered into an oral agreement with James D. Palm, our Chief Executive Officer, with respect to his compensation and benefits, pursuant to which Mr. Palm is entitled to an annual salary of \$200,000 and, at the discretion of our board of directors, an annual cash incentive bonus. For 2009, Mr. Palm's annual salary was \$225,000. To date, the compensation committee has made no adjustments to Mr. Palm's annual salary for 2010. Mr. Palm is also eligible to participate in all insurance, retirement and benefits plans available to our other employees.

Change in Control Arrangements

Our named executive officers do not currently have any change in control arrangements, except that Mr. Liddell's employment agreement provides that upon termination of Mr. Liddell's employment by us without cause, Mr. Liddell is entitled to receive twelve months of his then current base salary, and all of his then unexercisable options will become exercisable. See "Employment Agreements" above. In addition, our Amended and Restated 2005 Stock Incentive Plan provides that in the event of significant corporate transaction involving a change in control (as defined under the plan) of our company, such as a dissolution or liquidation of us, or any corporate separation or division, including, but not limited to, a split-up, a split-off or a spin-off, or a sale in one or a series of related transactions, of all or substantially all of our assets or a merger, consolidation, or reverse merger in which we are not the surviving entity, then all outstanding stock awards under the Amended and Restated 2005 Stock Incentive Plan may, in the sole discretion of the plan administrator, be assumed, continued or substituted for by any surviving or acquiring entity (or its parent company), or may be cancelled either with or without consideration for the vested portion of the awards. In the event an award would be cancelled without consideration paid to the extent vested, the award recipient may exercise the award in full or in part for a period of ten days. The plan administrator may also exercise its discretionary authority to accelerate the vesting of an award under the Amended and Restated 2005 Stock Incentive Plan in the event of a change in control.

Potential payments to our Chief Executive Officer and our other named executive officers upon termination or following a change in control event are set forth under the heading "Potential Payments upon Termination or Change-in-Control."

Effect of Our Compensation Policies and Practices on Risk and Risk Management

The Compensation Committee reviews the risks and rewards associated with our compensation policies and programs. We believe that such policies and programs encourage and reward prudent business judgment and appropriate risk-taking over the long term. With respect to specific elements of compensation:

- We believe that our programs balance short- and long-term incentives for our executive officers providing for an appropriate mix of fixed, discretionary and equity compensation that overall encourages long-term performance;
- We believe that annual base salaries for our named executive officers do not encourage excessive risk-taking as they are fixed amounts that are subject to discretionary increases by our board of directors, based, among other factors, on annual performance evaluations. We also believe that such annual base salaries are set at reasonable levels, as compared to the base salaries of similarly situated individuals at our peer group companies, and therefore do not encourage our named executive officers to be overly conservative with respect to taking appropriate amount of risk to increase stockholder value.

Table of Contents

- Our annual bonuses are designed to award achievement of short-term results, payment and amounts of which bonuses are within the discretion of and determined by our board of directors based on our company's performance for the prior fiscal year and annual performance evaluations of our named executive officers.
- Stock options and restricted stock awards granted to our named executive officers are subject to time vesting provisions. We awarded stock options in order to align compensation with company performance as the options become valuable to the executive only if the stock price increases from the date of grant. Also, stock options require a long-term commitment by executives to realize the appreciation potential of the options. We award restricted stock awards to ensure that our executives have a continuing stake in the long-term success of our company as the value of the award will depend on the stock price at the time of vesting. We believe that our long-term equity awards do not encourage excessive risk taking that may be associated with equity awards vesting of which is based strictly on achieving certain targets. We also believe that our long-term equity awards provide incentive to our named executive officers to take appropriate amount of risk.
- Our named executive officers do not currently have any change in control arrangements, except that Mr. Liddell's employment agreement provides that upon termination of Mr. Liddell's employment by us without cause, Mr. Liddell is entitled to receive twelve months of his then current base salary, and all of his then unexercisable options will become exercisable.

Based on the foregoing, the Compensation Committee believes that our company does not utilize compensation policies and programs creating risks that are reasonably likely to have a material adverse impact on our company.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits the deductibility for federal income tax purposes of executive compensation paid to the Chief Executive Officer and the four other most highly compensated officers of a public company to \$1,000,000 per year, but contains an exception for certain performance-based compensation. Our policy is to periodically review and consider whether particular compensation and incentive payments to our executives will be deductible for federal income tax purposes. We intend, to the extent feasible and when we believe it is in the best interests of our company and our stockholders, to attempt to qualify executive compensation as tax deductible where it does not adversely affect the development and execution of our compensation plans.

Accounting Implications of Executive Compensation Policy

We are required to recognize compensation expense of all stock-based awards pursuant to the provisions of FASB ASC Topic 718, "Compensation—Stock Compensation." Non-vested shares are deemed issued and outstanding from legal perspective; however, under U.S. generally accepted accounting principles, or GAAP, only vested shares are included in basic shares outstanding. Also, under GAAP, non-vested shares are included in diluted shares outstanding when the effect is dilutive.

Report of the Compensation Committee on Executive Compensation

The compensation committee has reviewed and discussed the foregoing Compensation Discussion and Analysis with management. Based on its review and discussion with management, the compensation committee recommended that the Compensation Discussion and Analysis be included in this proxy statement.

Respectfully submitted by the compensation committee:

Retirement Plans

401(k) Plan

We maintain a retirement savings plan, or a 401(k) Plan, for the benefit of our eligible employees who have attained the age of 18. Currently, employees may elect to defer their compensation up to the statutorily prescribed limit. During the following year, we make a safe harbor contribution equal to 3% of each eligible employee's gross annual compensation for the prior calendar year. We also have the ability to make an additional, discretionary contribution based on each eligible employee's gross annual compensation for the prior calendar year. Both contributions are made, regardless of employee's deferrals into the plan. In 2009, we made a safe harbor and discretionary contribution totaling 6% for eligible employees, subject to certain limitations provided by our 401(k) plan and Internal Revenue Services regulations. All contributions made by us on behalf of an employee are 100% vested when contributed. The 401(k) Plan is intended to qualify under Sections 401(a) and 501(a) of the Internal Revenue Code. As such, contributions to the 401(k) Plan and earnings on those contributions are not taxable to the employees until distributed from the 401(k) Plan, and all contributions are deductible by us when made.

Amended and Restated 2005 Stock Incentive Plan

Our Amended and Restated 2005 Stock Incentive Plan was adopted to enable us, and any of our affiliates, to attract and retain the services of the types of employees, consultants and directors who will contribute to our long range success and to provide incentives which are linked directly to increases in share value which will inure to the benefit of our stockholders. The plan provides a means by which eligible recipients of awards may be given an opportunity to benefit from increases in value of our common stock through the granting of incentive stock options, nonstatutory stock options, restricted awards, performance awards and stock appreciation rights. Our board of directors, or a committee of the board of directors, serves as the plan administrator.

Eligible award recipients are employees, consultants and directors of ours and our affiliates. Incentive stock options may be granted only to our employees. Awards other than incentive stock options may be granted to employees, consultants and directors. The shares that may be issued pursuant to awards consist of our authorized

but unissued common stock, and the maximum aggregate amount of such common stock which may be issued upon exercise of all awards in the plan, including incentive stock options, may not exceed 3,000,000 shares, subject to adjustment to reflect certain corporate transactions or changes in our capital structure. In November 2009, we granted 6,666 shares of our restricted common stock to each of Messrs. Streller and Houston, two of our three independent directors, which shares vest in 12 substantially equal quarterly installments beginning on December 17, 2009. We did not grant any other awards to our executive officers or directors in 2009. In March 2010, the compensation committee granted a restricted stock award of 66,667 shares of restricted common stock to our Chairman of the Board under our Amended and Restated 2005 Stock Incentive Plan, which shares vest in 12 substantially equal quarterly installments, beginning on March 18, 2010. On April 1, 2010, 508,630 shares were issuable upon exercise of outstanding options and 269,773 shares of restricted common stock had been granted under this plan. There were 1,079,341 shares available for future grants under this plan.

In the event of significant corporate transaction involving a change in control (as defined in the plan) of our company, such as a dissolution or liquidation of us, or any corporate separation or division, including, but not limited to, a split-up, a split-off or a spin-off, or a sale in one or a series of related transactions, of all or substantially all of our assets or a merger, consolidation, or reverse merger in which we are not the surviving entity, then all outstanding stock awards under the Amended and Restated 2005 Stock Incentive Plan may, in the sole discretion of the plan administrator, be assumed, continued, or substituted for by any surviving or acquiring entity (or its parent company), or may be cancelled either with or without consideration for the vested portion of the awards. In the event an award would be cancelled without consideration paid to the extent vested, the award recipient may exercise the award in full or in part for a period of ten days. The plan administrator may also exercise its discretionary authority to accelerate the vesting of an award under the Amended and Restated 2005 Stock Incentive Plan in the event of a change in control.

Employment Agreements

What are the terms of the employment agreements with our executive officers?

In May 1999, we entered into an employment agreement with Mike Liddell, our Chairman of the Board. The agreement had an initial five-year term and automatically renews for successive one-year terms thereafter. The agreement provides for an annual base salary of \$200,000, adjusted for cost of living increases. As a result of these increases, Mr. Liddell's base salary had risen to \$261,373 effective June 1, 2009. Upon termination of Mr. Liddell's employment by us without cause, Mr. Liddell is entitled to receive twelve months of his then current base salary, and all of his then unexercisable options will become exercisable. The agreement also restricts Mr. Liddell's use or disclosure of any of our confidential information during the term of the agreement and for a period of five years thereafter.

We also entered into an oral agreement with James D. Palm, our Chief Executive Officer, with respect to his compensation and benefits, pursuant to which Mr. Palm is entitled to an annual salary of \$200,000 and, at the discretion of our board of directors, an annual cash incentive bonus. For 2009, Mr. Palm's annual salary was \$225,000. The compensation committee has determined that Mr. Palm's annual salary for 2010 will remain at the 2009 level. Mr. Palm is also eligible to participate in all insurance, retirement and benefits plans available to our other employees.

Change in Control Arrangements

Our named executive officers do not currently have any change in control arrangements, except that Mr. Liddell's employment agreement provides that upon termination of Mr. Liddell's employment by us without cause, Mr. Liddell is entitled to receive twelve months of his then current base salary, and all of his then unexercisable options will become exercisable. See "Employment Agreements" above. In addition, our Amended and Restated 2005 Stock Incentive Plan provides that in the event of significant corporate transaction involving a change in control of our company, such as a dissolution or liquidation of us, or any corporate separation or division, including, but not limited to, a split-up, a split-off or a spin-off, or a sale in one or a series of related

[Table of Contents](#)

transactions, of all or substantially all of our assets or a merger, consolidation, or reverse merger in which we are not the surviving entity, then all outstanding stock awards under the Amended and Restated 2005 Stock Incentive Plan may, in the sole discretion of the plan administrator, be assumed, continued, or substituted for by any surviving or acquiring entity (or its parent company), or may be cancelled either with or without consideration for the vested portion of the awards. In the event an award would be cancelled without consideration paid to the extent vested, the award recipient may exercise the award in full or in part for a period of ten days. The plan administrator may also exercise its discretionary authority to accelerate the vesting of an award under the Amended and Restated 2005 Stock Incentive Plan in the event of a change in control.

Potential payments to our Chief Executive Officer and our other named executive officers upon termination or following a change in control event are set forth under the heading "Potential Payments upon Termination or Change-in-Control" below.

Potential Payments Upon Termination or Change-in-Control

If Mr. Liddell had been terminated at December 31, 2009 without cause, he would have been entitled to \$261,373 in cash severance payments. The value of his unexercisable stock options would have been \$0. If Messrs. Palm and Moore had been terminated at December 31, 2009 for any reason, they would have been entitled to no cash severance payments.

To our knowledge, based solely on a review of the copies of such reports furnished to us and written representations of our officers and directors, all Section 16(a) reports for the year ended December 31, 2009 applicable to our officers and directors and such other persons were filed on a timely basis, except that a report on Form 4 for each of Messrs. The agreement provides that each party must offer the other party the right to participate in such acquisition in proportion to its participating interest, which is 20% for us and 80% for Bakken and Windsor Dakota, collectively. The parties also agreed, subject to certain exceptions, to share third-party costs and expenses in proportion to their respective participating interests and pay certain other fees as provided in the agreement. During the third quarter of 2006, we purchased, through our wholly owned subsidiary Grizzly Holdings, Inc., a 24.9999% interest in Grizzly, a Canadian unlimited liability company, for approximately \$8,200,000. The remaining interests in Grizzly are owned by other entities controlled by Wexford Capital LP. During 2006 and 2007, Grizzly acquired leases in the Athabasca region located in the Alberta Province near Fort McMurray near other oil sands development projects. Grizzly has approximately 527,000 acres under lease and, at December 31, 2009, our net investment in Grizzly was approximately \$41,000,000, including a note receivable of \$15,900,000 as discussed in the following paragraph.

We, through our wholly owned subsidiary Grizzly Holdings Inc., entered into a loan agreement with Grizzly effective January 1, 2008, under which Grizzly may borrow funds from us. Borrowed funds bear interest at LIBOR plus 4%. Interest is paid on a paid-in-kind basis by increasing the outstanding balance of the loan. The loan matures on December 31, 2012. We loaned Grizzly approximately \$4,377,000 during the year ended December 31, 2009. The Company recognized interest income of approximately \$547,000 for the year ended December 31, 2009 under this loan agreement. The note balance was increased by approximately \$1,843,000 as a result of a currency translation gain for the year ended December 31, 2009.

Option and Purchase Agreement and Related Agreements

On November 30, 2007, we entered into an option agreement with Windsor Permian LLC, an entity controlled by Wexford Capital LLC, which we refer to as Windsor Permian. Under the option agreement, we were granted the right to participate on a 50/50 basis with Windsor Permian in the acquisition of certain strategic assets in Upton County, Texas in the Permian Basin. On December 12, 2007, we exercised the option and on December 18, 2007, the purchase agreement was amended to, among other things, add Gulfport as a buyer under the purchase agreement. On December 20, 2007, the acquisition was closed, effective as of November 1, 2007. We and Windsor Permian also agreed to share equally all third-party costs and expenses incurred by each of us in connection with the transaction.

In addition, effective as of November 1, 2007, we and Windsor Permian entered into an area of mutual interest agreement to jointly acquire oil and gas leases in the Permian Basin. The agreement provides that each party must offer the other party the right to participate in 50% of each such acquisition. The parties also agreed, subject to certain exceptions, to share third-party costs and expenses in proportion to their respective participating interests and pay certain other fees as provided in the agreement.

In connection with the area of mutual interest agreement, we, Windsor Permian and Windsor Energy Group, L.L.C., as the operator, entered into the joint development agreement, effective as of November 1, 2007, pursuant to which we and Windsor Permian agreed to develop certain jointly held oil and gas leases in the Permian Basin, and Windsor Energy Group, L.L.C. agreed to act as the operator under the terms of the joint operating agreement, effective as of November 1, 2007. In the event either party has greater than a 50% interest in a prospect, as defined in the development agreement, the majority party may designate the operator of its choice. The parties agreed to pay Windsor Energy Group, L.L.C. for its services as the operator with respect to the contract area as provided in the joint operating agreement.

However, we are submitting this proposal to the stockholders as a matter of good corporate practice. Approval of this proposal requires the affirmative vote of a majority of the votes cast on the proposal. If the appointment of Grant Thornton is not ratified, the Audit Committee will reconsider the appointment. Even if the appointment is ratified, the Audit Committee in its discretion may direct the appointment of a different independent audit firm at any time during the year if it is determined that such change would be in best interests of the Company and its stockholders.

Householding

The SEC permits a single set of annual reports and proxy statements to be sent to any household at which two or more stockholders reside if they appear to be members of the same family. Each stockholder continues to receive a separate proxy card. This procedure, referred to as householding, reduces the volume of duplicate information stockholders receive and reduces our mailing and printing expenses.

If you would like to receive your own set of the annual report and proxy statement this year or in future years, follow the instructions described below. Similarly, if you share an address with another Gulfport stockholder and together both of you would like to receive in the future only a single annual report and proxy statement, follow these instructions:

- If your shares of our common stock are registered in your own name, please contact our transfer agent, Computershare Trust Company, N.A., and inform them of your request by calling their toll-free number: (800) 962-4284 or by mail: Computershare Trust Company, N.A., 250 Royall Street, Canton, MA 02021.
- If a broker or other nominee holds your shares, please contact your broker or nominee.

Other Matters

The board of directors does not intend to present any other items of business other than those stated in the Notice of Annual Meeting of Stockholders. If other matters are properly brought before the meeting, the persons named as your proxies will vote the shares represented by it in accordance with their best judgment. Discretionary authority to vote on other matters is included in the proxy.
